## 2026 Election

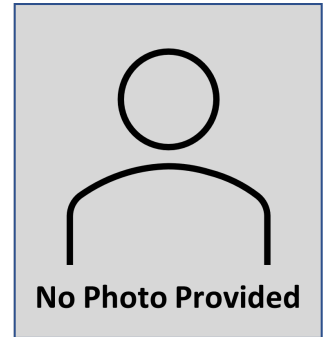

### Candidate Profile:

Seth Strickland

Business Banking Portfolio Manager, United Bank

### Check all that apply:

- Experience with Business
- Resident of Georgetown County, South Carolina

### College and Training:

Elon University BS in Accounting

### Board Experience:

Outreach Farms. 2014-2016 Director/Secretary

### Why do you want to serve on the CMCS Board of Directors?

I want to serve on the CMCS Board because I value strong public education and the importance of independent, community-based governance. I do not have a child attending CMCS, which allows me to offer an objective perspective focused on the school's long-term success. Education has always been important to me—both of my parents were educators—and I see this as a meaningful way to give back to the community. Serving on the board would allow me to support a mission-driven public school that benefits students and families in Georgetown County.

### How do you hope to advance the mission of CMCS by serving on the board?

I hope to advance CMCS's mission by supporting strong financial stewardship and thoughtful governance that enables educators to focus on students. With a degree in accounting and 12 years of experience in banking, I have a background in reviewing budgets, financial statements, and funding strategies. I would bring this experience to help evaluate financial decisions, assess risk, and support long-term planning. Sound financial oversight and transparency are essential to sustaining CMCS's mission and preserving the integrity of its Montessori-based public education model.

### What do you see as your greatest strengths, and what positive additions can you bring to this board?

My greatest strengths are financial analysis, objectivity, and strategic thinking. I hold a degree in accounting and have spent over a decade in banking working with budgets, financial reporting, loans, and long-term planning. As a non-parent board member, I bring an independent perspective focused on governance, sustainability, and mission alignment. I would contribute clear financial insight, ask constructive questions, and collaborate effectively with fellow board members to support decisions that best serve students and the broader CMCS community.
